Morgan's Particular Fad.

Among the many collections of art objects J. Pierpont Morgan has made in this country and in Europe is one of exactly 899 miniatures that are in his London house in Prince's Gate. The little pictures are not hung on screens in the usual manner, but are kept in a cabinet whose tray-like shelves are lined with black velvet, each miniature being securely fastened to the bottom of the tray. A New Yorker going through the Morgan house while on a recent visit to London asked the guide who was showing him over the house why Mr. Morgan didn't buy another miniature and make the collection an even thousand. "Oh, that is one of his particular pets, that odd number," was the reply.

A Wood Corner.

United States Commissioner Hayes of Boston is one of the most expert wood carvers and hammerers of brass in this country. In his own home in Cambridge he has one of the finest collections of carved wood and hammered brass designs to be found anywhere perhaps in the state. The handsome articles turned out under his knife are gems of the wood carver's art. His friends consider themselves fortunate when they are made recipients of his handiwork.—Boston Traveller.

Fewer Fogs in London.

Efforts of the Coal Smoke Abatement society, in greatly reducing the volume of smoke, have been instrumental in making black fogs rare in London. A few years ago these fogs were quite frequent in London in winter, and for several days at a time the city itself and the outlying suburbs were covered by a dark, black pall, sometimes high in the air, but more frequently descending and forming a thick, dirty and greenish-yellow substance through which the people had to travel. Fogs still occur in London, but only occasionally, and not for several years has there been an old-fashioned fog when torch-bearers had to be employed to indicate the way.

BEET FARMERS HAVE HAD A VERY GOOD SEASON

It is said by Field Superintendent Job Pingree of the Amalgamated Sugar company that all the beets for the Ogden factory have been dug and that all but a few which are at Five Points, have been assembled at the factory.

There is a small supply of beets stacked at the Hot Springs, Willard and Brigham City, the superintendent says, but they will be shipped to the Logan factory. Exceptionally good success has been attained in digging beets this year, as a result of which all the tubers are at the factories earlier than usual.

A Letter From Santa Claus To The Children of Ogden

The North Pole, Dec. 1, 1913.

To the Children of Ogden.

Care of The Ogden Standard.

My Dear Children:

Dear me, but this warm weather is going to be hard on your old friend this year, but I am surely going to see you all anyway. I have decided that although I can not get my faithful Reindeer to pull all the good things that I will have for you on the dry ground, I will be there just the same and I will have to come on the train.

I will get into Ogden at about half past two, Saturday afternoon, and I want you all to be there to meet me at the Union Depot. If your papa has an auto, please have him bring you in it, but meet me anyway.

If you can't meet me at the train be sure and see me at Mr. Wright's store at about 3 o'clock, for I have a lot of Christmas buttons for you all.

Now Dear Children I can't write you any more now for I have to write lots of letters to the other children all over the world. So good-bye until Saturday. Yours

LOVING SANTA.

P. S. Be sure to meet me Saturday and get a button and I will tell you how to get your Christmas money for just a little work and a lot of fun.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the musay mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair.—Agents, A. R. McIntyre.
